All proxies, to be valid, must be received by Computershare Trust Company of Canada at its office located at 100 University Avenue, 8th Floor, North Tower Toronto, ON, M5J 2Y1 at least 48 hours, excluding Saturdays, Sundays and holidays, before the Meeting or any adjournment thereof. WEST MOUNTAIN ENVIRONMENTAL CORP.
MANAGEMENT INFORMATION CIRCULAR
SOLICITATION OF PROXIES

THIS MANAGEMENT INFORMATION CIRCULAR (“MANAGEMENT INFORMATION CIRCULAR”) IS PROVIDED IN CONNECTION WITH THE SOLICITATION BY MANAGEMENT AND THE BOARD OF DIRECTORS OF WEST MOUNTAIN ENVIRONMENTAL CORP. (the “Corporation” or “West Mountain”) of proxies from the holders of common shares (the “Common Shares”) for the annual general and special meeting of the shareholders of the Corporation (the “Meeting”) to be held on Thursday, August 27, 2015, at 9:00 a.m. at the offices of DLA Piper (Canada) LLP at Livingston Place, 1000, 250 - 2nd Street S.W., Calgary, Alberta, or at any adjournment thereof for the purposes set out in the accompanying notice of meeting (“Notice of Meeting”).

Although it is expected that the solicitation of proxies will be primarily by mail, proxies may also be solicited personally or by telephone, facsimile or other proxy solicitation services. In accordance with National Instrument 54-101 — *Communication with Beneficial Owners of Securities of a Reporting Issuer* (“NI 54-101”), arrangements have been made with brokerage houses and other intermediaries, clearing agencies, custodians, nominees and fiduciaries to forward solicitation materials to Beneficial Shareholders (as defined below) held of record by such persons and the Corporation may reimburse such persons for reasonable fees and disbursements incurred by them in doing so. The costs thereof will be borne by the Corporation.

APPOINTMENT AND REVOCATION OF PROXIES

Accompanying this Management Information Circular is a form of proxy for holders of the Common Shares of West Mountain. The persons named in the enclosed form of proxy are directors and officers of the Corporation.

A shareholder may appoint another person (who need not be a shareholder) to represent such shareholder at the Meeting, other than the persons designated in the accompanying form of proxy, and may do so either by inserting such person’s name in the blank space provided in the accompanying form of proxy or by completing another form of proxy and, in either case, sending or delivering the completed proxy to the offices of Computershare Trust Company of Canada, 100 University Avenue, 8th Floor, North Tower Toronto, ON, M5J 2Y1.

The proxy will not be valid for the Meeting or any adjournment or postponement thereof unless it is completed and delivered to the Corporation’s transfer agent, Computershare Trust Company of Canada, Proxy Tabulation Department, 100 University Avenue, 8th Floor, North Tower Toronto, ON, M5J 2Y1, by 9:00 am (Calgary time) on the day that is two (2) business days immediately preceding the date of the Meeting or any adjournment or postponement thereof. Late proxies may be accepted or rejected by the Chairman of the Meeting in his discretion, and the Chairman is under no obligation to accept or reject any particular late proxy.

A shareholder who has given a form of proxy may revoke it as to any matter on which a vote has not already been cast pursuant to its authority by an instrument in writing executed by such shareholder or by his attorney duly authorized in writing or, if the shareholder is a corporation, by a director, officer or attorney thereof duly authorized, and deposited either at the above mentioned office of Computershare Trust Company of Canada or at the registered office of the Corporation at 1000, 250 2nd Street S.W., Calgary, Alberta, T2P, 0C1 no later than 9:00 a.m. (Calgary time) on the day that is two (2) Business Days immediately preceding the date prior to the Meeting or any postponement or adjournment thereof. The time limit for deposit of proxies may be waived or extended by the Chairman of the Meeting at his or her discretion, without notice.

SIGNATURE OF PROXY

The form of proxy must be executed by the shareholder or his or her attorney authorized in writing, or if the shareholder is a corporation, the form of proxy should be signed in its corporate name under its corporate seal by an authorized officer whose title should be indicated. A proxy signed by a person acting as attorney or in some other representative capacity should reflect such person’s capacity following his or her signature and should be accompanied by the appropriate instrument evidencing qualification and authority to act (unless such instrument has been previously filed with West Mountain).

EXERCISE OF DISCRETION BY PROXY HOLDERS

All Common Shares represented at the Meeting by properly executed proxies will be voted. Where a choice with respect to any matter to be acted upon has been specified in the instrument of proxy, the Common Shares represented by the proxy will be voted in accordance with such specification. In the absence of such specification, such Common Shares will be voted in favour of each resolution. The enclosed forms of proxy confer discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting. At the time of printing of this Management Information Circular, management of the Corporation knows of no such amendment, variation or other matter.

ADVICE TO BENEFICIAL SHAREHOLDERS

The information set forth in this section is of significant importance to many shareholders, as a substantial number of shareholders do not hold their Common Shares in their own name. Shareholders who do not hold Common Shares in their own name (“**Beneficial Shareholders**”) should note that only proxies deposited by shareholders whose names appear on the records of the registrar and transfer agent for the Corporation as the registered holders of Common Shares can be recognized and acted upon at the Meeting. If Common Shares are listed in an account statement provided to a shareholder by a broker, then in almost all cases those Common Shares will not be registered in the shareholder’s name on the records of the Corporation. Such Common Shares will more likely be registered under the name of the Shareholder’s broker or an agent of that broker. In Canada, the vast majority of such Common Shares are registered under the name of CDS & Co. (the registration name for CDS Clearing and Depository Services Inc., which acts as nominees for many Canadian brokerage firms). Common Shares held by brokers or their nominees can only be voted (for or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, the broker/nominees are prohibited from voting Common Shares for their clients. West Mountain does not know for whose benefit the Common Shares registered in the name of CDS & Co. are held.

Applicable regulatory policy requires intermediaries/brokers to seek voting instructions from Beneficial Shareholders in advance of shareholders’ meetings. Every intermediary/broker has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Shareholders in order to ensure that their Common Shares are voted at the Meeting. Often, the form of proxy supplied to a shareholder by its broker is identical to the form of proxy provided to registered shareholders; however, its purpose is limited to instructing the registered shareholders how to vote on behalf of the Beneficial Shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. (“**Broadridge**”). Broadridge typically mails a scanable Voting Instruction Form in lieu of the form of proxy. The Beneficial Shareholder is requested to complete and return the Voting Instruction Form to them by mail or facsimile. Alternatively the Beneficial Shareholder can call a toll-free telephone number or access the internet to vote their Common Shares. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. A Beneficial Shareholder receiving a Voting Instruction Form cannot use that Voting Instruction Form to vote Common Shares directly at the Meeting as the Voting Instruction Form must be returned as directed by Broadridge well in advance of the Meeting in order to have their Common Shares voted.

Although you may not be recognized directly at the Meeting for the purposes of voting the Common Shares registered in the name of your broker or other intermediary, you may attend at the Meeting as a proxyholder for the registered holder and vote your Common Shares in that capacity. If you wish to attend the Meeting and vote your own Common Shares you must do so as proxyholder for the registered holder. To do this, you should enter your own name in the blank space on the applicable form of proxy provided to you and return the document to your broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting.

All references to shareholders in this Management Information Circular and the accompanying Instrument of Proxy and Notice of Meeting are to registered shareholders unless specifically stated otherwise.

VOTING OF PROXIES

Each shareholder may instruct his proxy how to vote his Common Shares by completing the blanks on the Instrument of Proxy. All Common Shares represented at the Meeting by properly executed proxies will be voted or withheld from voting (including the voting on any ballot), and where a choice with respect to any matter to be acted upon has been specified in the Instrument of Proxy, the Common Shares represented by the proxy will be voted in accordance with such specification. **In the absence of any such specification as to voting on the Instrument of Proxy, the Management Designees, if named as proxy, will vote in favour of the matters set out therein. In the absence of any specification as to voting on any other form of proxy, the Common Shares represented by such form of proxy will be voted in favour of the matters set out therein.**

The enclosed Instrument of Proxy confers discretionary authority upon the Management Designees, or other persons named as proxy, with respect to amendments to or variations of matters identified in the Notice of Meeting and any other matters which may properly come before the Meeting. As of the date hereof, the Corporation is not aware of any amendments to, variations of or other matters that may come before the Meeting. In the event that other matters come before the Meeting, then the Management Designees intend to vote in accordance with the judgment of management of the Corporation.

QUORUM

The by-laws of the Corporation provide that at least two persons holding or representing by proxy not less than five percent of the issued Common Shares shall constitute a quorum for meetings of shareholders.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The Corporation is authorized to issue an unlimited number of Common Shares and an unlimited number of preferred shares, issuable in series. As at July 21, 2015, the effective date of this Management Information Circular (the “**Effective Date**”) the Corporation has 53,970,406 Common Shares issued and outstanding as fully paid and non-assessable. There are no other shares of any class issued and outstanding. The Common Shares are the only shares entitled to be voted at the Meeting, and holders of Common Shares are entitled to one vote for each Common Share held.

Holders of Common Shares of record at the close of business on July 25, 2015 (the “**Record Date**”) are entitled to vote such Common Shares at the Meeting on the basis of one vote for each Common Share held except to the extent that, (a) the holder has transferred the ownership of any of his Common Shares after the Record Date, and (b) the transferee of those Common Shares produces properly endorsed share certificates, or otherwise establishes that he owns the Common Shares, and demands not less than seven days before the day of the Meeting that his name be included in the list of persons entitled to vote at the Meeting, in which case the transferee will be entitled to vote his Common Shares at the Meeting.

To the knowledge of the directors and the executive officers of the Corporation, as at the Effective Date, no person or company beneficially owns, directly or indirectly, or controls or directs, voting securities carrying 10% or more of the voting rights attached to any class of voting securities of the Corporation, except as follows:

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The compensation program of the Corporation is designed to attract, motivate, reward and retain knowledgeable and skilled executives required to achieve the Corporation’s corporate objectives and increase shareholder value. The main objective of the compensation program is to recognize the contribution of the executive officers to the overall success and strategic growth of the Corporation. The compensation program is designed to reward management performance by aligning a component of the compensation with the Corporation’s business performance and share value. The philosophy of the Corporation is to pay the management a total compensation amount that is competitive with other executives in the environmental/waste management industry and geographical area and an amount that is consistent with the experience and responsibility level of the individual. The purpose of executive compensation is to reward the executives for their contributions to the achievements of the Corporation on both an annual and long-term basis.

The Corporate Governance and Compensation Committee

An objective of the Corporate Governance and Compensation Committee is to determine the compensation for the Named Executive Officers (defined below) based on their performance. The Corporate Governance and Compensation Committee is also responsible for reviewing all compensation strategy, objectives and policies; annually reviewing and assessing the performance of the executive officers; determining the compensation of executive officers and reviewing executive appointments. The Chief Executive Officer of the Corporation is charged with establishing compensation for the other non-executive employees of the Corporation.

The Corporate Governance and Compensation Committee is comprised of George J. Furey, Anthony Vysniauskas and Wang Kunxiao. Anthony Vysniauskas acts as the chair of the Corporate Governance and Compensation Committee. All the members of the Corporate Governance and Compensation Committee are considered independent, as such term is defined in section 1.4 of National Instrument 52-110 - *Audit Committees* (“**NI 52-110**”), and are experienced participants in the business world who, in addition to sitting on the Board of Directors of the Corporation, have sat on the board of directors of other companies, charities or business associations. The Corporate Governance and Compensation Committee has the responsibility of recommending stock option grants and bonus awards to the Board in addition to negotiating the Named Executive Officers’ annual salaries or consulting fees. The Corporate Governance and Compensation Committee is able to retain consultants to assist them in the determination of executive compensation decisions if they deem necessary.

Responsibilities of the Corporate Governance and Compensation Committee in respect of corporate governance matters include reviewing and providing recommendation to the Board on the following matters:

1. preparing the Corporation’s response to applicable securities laws or stock exchange rules when required, and explaining as required any differences between the Corporation’s governance system and policies and the recommended governance standards by securities regulators;
2. developing and monitoring the Corporation’s general approach to corporate governance issues as they may arise;

3. proposing changes as necessary from time to time to respond to particular governance recommendations or guidelines from regulatory authorities and ensuring that all appropriate or necessary governance systems remain in place and are periodically reviewed for effectiveness;
4. ensuring that all members of the Board have been informed of and are aware of their duties and responsibilities as directors of the Corporation;
5. ensuring that the Corporation has in effect adequate policies and procedures to allow the Corporation to meet all of its continuous disclosure requirements;
6. ensuring that the Corporation has in effect adequate policies and procedures to identify and manage the principal risks of the Corporation's business;
7. developing and monitoring the Corporation's policies relating to trading in securities of the Corporation by insiders as well as corporate disclosure and confidentiality;
8. annually reviewing areas of potential personal liability of directors and ensuring reasonable protective measures are in place;
9. causing the Board to annually review its definition of an "independent" director;
10. developing written corporate governance guidelines and mandate for the Board in which it explicitly acknowledges responsibility for the stewardship of the Corporation and considers (i) measures for receiving feedback from stakeholders and (ii) expectations and responsibilities of directors, including basic duties and responsibilities with respect to attendance at Board meetings and advance review of meeting materials;
11. developing clear position descriptions for the Chairman of the Board and the Chair of each Board Committee, and together with the Chief Executive Officer, developing a clear position description for the Corporation's officers, which includes delineating management's responsibilities and developing the corporate goals and objectives that the Chief Executive Officer is responsible for meeting;
12. assessment of the Board, its committees and each individual director in respect of effectiveness and contribution;
13. developing a comprehensive orientation and continuing education program for all directors;
14. developing a written code of business conduct and ethics that is applicable to all directors, officers and employees of the Corporation;
15. considering the appointment of a nominating committee in respect of the recruitment of prospective directors (or the establishment of a nominating function within an existing Board Committee) and if thought appropriate, developing a written charter or terms of reference for such committee in developing a process for selecting, recruiting and evaluating the performance of new directors; and
16. periodically considering the need for special policies of the Corporation, initiated by the Board, in unique or emerging policy areas such as corporate ethics, gender equality, sexual harassment, and environmental best practices.

The Corporate Governance and Compensation Committee has unrestricted access to the Corporation's personnel and documents and is provided with the resources necessary, including, as required, the engagement and compensation of outside advisors, to carry out its responsibilities.

As all of the members of the Corporate Governance and Compensation Committee are also directors of the Corporation, the Corporate Governance and Compensation Committee's meetings were held as part of the Board of Directors' meetings. The Corporate Governance and Compensation Committee met a number of times in the year ended December 31, 2014. In

addition, individual Corporate Governance and Compensation Committee members also periodically reviewed with management the Corporation's approach to executive compensation.

The Corporate Governance and Compensation Committee annually reviews the compensation of the Named Executive Officers to determine the competitiveness of the target compensation. The Corporate Governance and Compensation Committee also assesses performance, considering both financial and non-financial objectives of the annual incentive plan.

The Corporate Governance and Compensation Committee will continue to review with management the approach to executive compensation and, if it becomes appropriate, will consider alternative or supplemental compensation arrangements.

The Board of Directors is satisfied that there were not any identified risks arising from the Corporation's compensation plans or policies that would have had any negative or material impact on the Corporation. The Corporation does not have any policy in place to permit an executive officer or director to purchase financial instruments, including for greater certainty, prepaid variable forward contracts, equity swaps, collars, or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the executive officer or director.

Compensation Plan and Policies

The Corporation's compensation policies are designed to attract, motivate, reward and retain knowledgeable and skilled executives required to achieve the Corporation's objectives and increase shareholder value. The main objective of the compensation program is to reward the individual contribution of the executive officers to the overall success and strategic growth of the Corporation. The Corporation's current compensation plan consists of the following elements:

- base salaries;
- annual incentive bonuses;
- option-based awards; and
- benefits and perquisites.

A description of each element and its purpose is described below.

Base Salaries

The purpose of the base salary is to attract and retain executives by providing a competitive base compensation. The level of base salary for each Named Executive Officer is determined by the level of responsibility and the importance of the position to the Corporation, within competitive industry ranges. The Corporate Governance and Compensation Committee makes recommendations to the Board of Directors regarding base salaries of the Named Executive Officers.

Annual Incentive Bonuses

Annual incentive bonuses are a short-term variable compensation element, designed to reward Named Executive Officers on an annual basis for achieving the Corporation's business objectives. The Corporation's business objectives are generally established by the Board of Directors at the start of each year. Determination of the amount of bonus awarded to each Named Executive Officer is based on an assessment by the Corporate Governance and Compensation Committee of several factors including contribution of the individual to overall progress of the Corporation in achieving its stated business objectives. The purpose of the annual incentive bonus is to pay for performance, align the Named Executive Officer's economic interest with the Corporation's business objectives and to motivate and retain the executives.

The Board of Directors has the discretion to alter the conditions of any bonus, if warranted. Discretionary bonuses may be paid to other employees at the discretion of the Board of Directors.

Notes:

- (1) “**Share-Based Award**” means an award under an equity incentive plan of equity-based instruments that do not have option-like features, including, for greater certainty, common shares, restricted shares, restricted share units, deferred share units, phantom shares, phantom share units, common share equivalent units and stock.
- (2) “**Option-Based Award**” means an award under an equity incentive plan of options, including, for greater certainty, share options, share appreciation rights and similar instruments that have option-like features.
- (3) Paul Antle did not receive any additional compensation for serving as a director of the Corporation.
- (4) The “grant date fair value” has been determined by using the Black-Scholes option-pricing model. See narrative discussion below.
- (5) Glenn Antle was appointed as Executive Vice President resident in Shanghai, China commencing August 1, 2014. Prior to that time he held the positions of Chief Operating Officer of the Corporation and Vice President, Operations.

Narrative Discussion

During the financial year ended December 31, 2014, Paul Antle, the President and Chief Executive Officer, was contracted by the Corporation through Pluto Investments Inc. (“**Pluto**”), a company controlled by Paul Antle, to act in the capacity of President and Chief Executive Officer of the Corporation. For the period beginning January 1, 2014 and ending December 31, 2014, the Corporation paid \$16,666.67 per month to Pluto for the services performed on behalf of the Corporation by Paul Antle. Paul Antle also received a performance based bonus of \$75,000 in connection with closing of the transaction with Jereh Energy Services Corporation (“**Jereh**”) pursuant to which Jereh invested US\$7,000,000 in the Corporation (the “**Jereh Transaction**”). See “*Interests of Informed Persons in Material Transactions*” for additional information regarding the Jereh Transaction.

During the financial year ended December 31, 2014, Paul Coombs, the Chief Financial Officer, provided management services on a contract basis and was paid an aggregate fee of \$54,000. Paul Coombs also received a performance-based bonus of \$10,000 in connection with closing of the Jereh Transaction.

During the financial year ended December 31, 2014, Glenn Antle, the Executive Vice President of the Corporation, also provided management services on a contract basis and was paid an aggregate fee of \$180,000 as compensation for such services. Glen Antle also received a performance-based bonus of \$100,000 in connection with closing of the Jereh Transaction.

For the purpose of calculating the value of stock options using the Black-Scholes option-pricing model is very different from a simple “in-the-money” value calculation. In fact, stock options that are well out-of-the-money can still have a significant “grant date fair value” based on a Black-Scholes option pricing model, especially where, as in the case of the Corporation, the price of the share underlying the option is highly volatile. Accordingly, investors should exercise caution when comparing grant date fair value amounts with cash compensation or an in-the-money option value calculation.

- (1) “**Option-Based Award**” means an award under an equity incentive plan of options, including, for greater certainty, share options, share appreciation rights and similar instruments that have option-like features.
- (2) The fair value of the options is calculated using the Black-Scholes option-pricing model. See narrative discussion below.
- (3) Effective March 31, 2014, John Wiebe and Steven Thompson resigned from the Board.
- (4) Wang Kunxiao and Cloris Chen, the President and CEO of Jereh, and the Vice-President of Jereh respectively, were appointed as directors of the Corporation on March 31, 2014 as part of the Jereh Transaction.
- (5) The Honourable George J. Furey was appointed to the Board of Directors effective February 14, 2014.

Narrative Discussion

During the financial year ended December 31, 2014, West Mountain granted 1,134,000 options as follows to the Outside Directors: Anthony Vysniauskas was granted 50,000 options, Grant Kook was granted 100,000 options, John Wiebe was granted 100,000 options, Honourable George J. Furey was granted 100,000 options, and Steven Thompson was granted 50,000 options. The exercise price of these options is \$0.27 per share. See “*Incentive Plan Awards - Outstanding Share-Based Awards and Option-Based Awards*” for additional information.

The Corporation did not pay cash compensation (including salaries, directors’ fees, commissions, bonuses paid for services rendered, bonuses paid for services rendered in a previous year, and any compensation other than bonuses earned by the directors for services rendered) to Outside Directors or corporations controlled by them for services rendered in their capacity as directors other than reimbursement of reasonable out-of-pocket expenses.

For the purpose of calculating the value of stock options using the Black-Scholes option-pricing model is very different from a simple “in-the-money” value calculation. In fact, stock options that are well out-of-the-money can still have a significant “grant date fair value” based on a Black-Scholes option-pricing model, especially where, as in the case of the Corporation, the price of the share underlying the option is highly volatile. Accordingly, investors should exercise caution when comparing grant date fair value amounts with cash compensation or an in-the-money option value calculation.

At no time since the commencement of the Corporation's most recently completed financial year was a recommendation of the Audit Committee to nominate or compensate an external auditor not adopted by the Board of Directors.

Reliance on Certain Exemptions

At no time since the commencement of the Corporation's most recently completed financial year has the Corporation relied on either of the following: (a) the exemption in Section 2.4 of NI 52-110 (De Minimis Non-Audit Services); or (b) an exemption from NI 52-110, in whole or in part, granted under Part 8 of NI 52-110.

CORPORATE GOVERNANCE

Corporate governance relates to the activities of the Board of Directors, the members of which are elected by and are accountable to the shareholders, and takes into account the role of the individual members of management who are appointed by the Board of Directors and who are charged with the day-to-day management of the Corporation. The Board of Directors is committed to sound corporate governance practices which are both in the interest of its shareholders and contribute to effective and efficient decision making. To achieve this goal, the Corporation has implemented an Audit Committee Terms of Reference and a Whistle Blower Policy. The Audit Committee Terms of Reference and Whistle Blower Policy are substantially reproduced in Schedule “A” to the management proxy and information circular dated May 8, 2014 and filed under the Corporation’s SEDAR profile at www.sedar.com.

Pursuant to National Instrument 58-101 — *Disclosure of Corporate Governance Practices* (“**NI 58-101**”) the Corporation is required to disclose its corporate governance practices as summarized below.

Board of Directors

The Board of Directors is currently comprised of six members and all of these individuals are nominated for re-election at the Meeting.

Anthony Vysniauskas, the Honourable George J. Furey, and Grant Kook are independent directors of the Corporation and have no ongoing material relationship with the Corporation other than their security holdings in the Corporation and serving as a director.

Paul Antle, the Chairman, President and Chief Executive Officer of the Corporation, is a member of management and as a result, is not an independent director. Wang Kunxiao and Cloris Chen are not independent directors due to their relationship with Jereh.

NI 58-101 suggests that the board of directors of a public company should be constituted of a majority of individuals who qualify as “independent” directors. An “independent” director is a director who has no direct or indirect material relationship with the Corporation. A material relationship is a relationship which could, in the view of the board of directors, reasonably interfere with the exercise of a director’s independent judgment. The Board of Directors is comprised of a majority of independent directors. The independent judgement of the Board of Directors in carrying out its responsibilities is the responsibility of all directors. The Board of Directors of the Corporation facilitates independent supervision of management through meetings of the Board of Directors and through frequent informal discussions among independent members of the Board of Directors and management. In addition, the Board of Directors have free access to the Corporation’s external auditors, legal counsel and to any of the Corporation’s officers.

Directorships

As at the Effective Date of this Management Information Circular, none of the directors of the Corporation are directors of other reporting issuers.

Board Mandate

The Board of Directors does not have a written mandate. The Corporation has established committees which report to the Board of Directors. As additional committees are required, they will be established.

The Board of Directors is responsible for the supervision of the management of the Corporation and must act in the best interests of the Corporation and the Shareholders. The Board of Directors acts in accordance with the *Business Corporations Act* (Alberta), the Articles and by-laws of the Corporation, and the specific terms of reference as laid out for each committee and the Board of Directors as a whole. The Board of Directors has the responsibility for adopting a strategic planning process and reviewing and approving the Corporation's strategic plan developed and proposed by management and monitoring performance against the plan. The Board of Directors is responsible for developing and adopting policies and procedures to identify the principal business risks of the Corporation and ensure that appropriate systems are implemented to manage these risks. The Board of Directors is also responsible for developing and adopting policies and procedures to ensure the integrity of the internal controls and management information systems of the Corporation. Matters that require Board of Directors approval include, among other things: (i) the approval of the quarterly and annual financial statements and management's discussion and analysis; (ii) the issuance of securities; (iii) significant acquisitions; (iv) annual capital and operating plans and budgets; and (v) the compensation of members of the senior management team.

Orientation and Continuing Education

At present, each new director is given an outline of the nature of the Corporation's business, its corporate strategy, and current issues with the Corporation along with a description of the committees constituted by the Board of Directors. New directors are also expected to be required to meet with management of the Corporation to discuss and better understand the Corporation's business and will be advised by counsel to the Corporation of their legal obligations as directors of the Corporation. New directors are also given copies of the Corporation's policies.

The introduction and education process will be reviewed on an annual basis by the Board of Directors and will be revised as necessary.

Ethical Business Conduct

The Board of Directors has considered adopting a written code of business conduct and ethics and has decided it is not necessary to adopt such a code at the present time due to the current activity level of the Corporation.

The Board of Directors of the Corporation has established a Whistle Blower Policy, which is Addendum "A" to the Audit Committee Terms of Reference and establishes the complaint procedure for concerns about any aspect of the Corporation's activities and operations. The Whistle Blower Policy and Audit Committee Terms of Reference are substantially reproduced in Schedule "A" to the management proxy and information circular dated May 8, 2014 and filed under the Corporation's SEDAR profile at www.sedar.com

The Board of Directors has found that the fiduciary duties placed on individual directors by the Corporation's governing corporate legislation and the common law and the restrictions placed by applicable corporate legislation on an individual director's participation in decisions of the Board of Directors in which the director has an interest have been sufficient to ensure that the Board of Directors operates independently of management and in the best interests of the Corporation.

Under corporate legislation, a director is required to act honestly and in good faith with a view to the best interests of the Corporation and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. In addition, as some of the directors of the Corporation may also serve as directors and officers of other companies engaged in similar business activities, directors must comply with the conflict of interest provisions of *Business Corporations Act* (Alberta), as well as the relevant securities regulatory instruments, in order to ensure that directors exercise

independent judgment in considering transactions and agreements in respect of which a director or officer has a material interest. Any interested director would be required to declare the nature and extent of his interest and would not be entitled to vote at meetings of directors which evoke such a conflict.

Nomination of Directors

The Board of Directors has not appointed a nominating committee. The Board of Directors determine new nominees to the Board of Directors although no formal process has been adopted. The nominees are generally the result of recruitment efforts by the Board of Directors members including both formal and informal discussions among the Board of Directors members and officers.

Compensation

The members of the Corporate Governance and Compensation Committee are listed under “*Particulars of Matters to Be Acted Upon - Election of Directors*”. The responsibilities of the Corporate Governance and Compensation Committee in respect of compensation matters include reviewing and recommending to the Board of Directors the compensation policies and guidelines for supervisory management and personnel, corporate benefits, bonuses and other incentives, reviewing and approving corporate goals and objectives relevant to Chief Executive Officer compensation; non-CEO officer and director compensation; the review of executive compensation disclosure; succession plans for officers and for key employees; and material changes and trends in human resources policy, procedure, compensation and benefits. See “*Executive Compensation - Compensation Discussion and Analysis - The Corporate Governance and Compensation Committee*”. The responsibilities of the Corporate Governance and Compensation Committee in respect of corporate governance matters include addressing all governance issues identified by securities regulators and any additional issues as they arise by virtue of the operations and growth of the Corporation as being emerging progressive issues of corporate governance.

The Corporate Governance and Compensation Committee has unrestricted access to the Corporation’s personnel and documents and is provided with the resources necessary, including, as required, the engagement and compensation of outside advisors, to carry out its responsibilities.

Other Board Committees

The Corporation has no standing committees at this time other than the Audit Committee and the Corporate Governance and Compensation Committee.

Assessments

The Board of Directors has not implemented a process for assessing its effectiveness. As a result of the Corporation’s size, its stage of development and the limited number of individuals on the Board of Directors, the Board of Directors considers a formal assessment process to be inappropriate at this time. The Board of Directors plans to continue evaluating its own effectiveness on an ad hoc basis.

The Board of Directors does not formally assess the performance or contribution of individual members of the Board of Directors or individual committee members.

PARTICULARS OF MATTERS TO BE ACTED UPON

To the knowledge of the Board of Directors of the Corporation, the only matters to be brought before the Meeting are those matters set forth in the accompanying Notice of Meeting.

1. Report and Financial Statements

The audited financial statements of the Corporation for the year ended December 31, 2014, and the report of the auditor thereon, will be placed before the Meeting. These financial statements are available on the Corporation’s SEDAR profile at www.sedar.com.

The Board of Directors of the Corporation has approved all of the information in the audited financial statements of the Corporation for the year ended December 31, 2014, and the report of the auditor thereon. The approval of the shareholders is not required in relation to the financial statements.

2. Fix Number of Directors to be Elected at the Meeting

Shareholders of the Corporation will be asked to consider and, if thought appropriate, to approve and adopt an ordinary resolution fixing the number of directors to be elected at the Meeting. In order to be effective, an ordinary resolution requires the approval of a majority of the votes cast by shareholders who vote in respect of the resolution.

At the Meeting, it will be proposed that seven directors be elected to hold office until the next annual general meeting or until their successors are elected or appointed. **Unless otherwise directed, it is the intention of the Management Designees, if named as proxy, to vote in favour of the ordinary resolution fixing the number of directors to be elected at the Meeting at seven (7).**

3. Election of Directors

The Corporation currently has six directors and all six of these directors are being nominated for re-election. A new person is also being nominated for election. The following table sets forth the name of each of the persons proposed to be nominated for election as a director, all positions and offices in the Corporation presently held by such nominee, the nominee's municipality of residence, principal occupation at the present and during the preceding five years, the period during which the nominee has served as a director, and the number and percentage of Common Shares of the Corporation that the nominee has advised are beneficially owned by the nominee, directly or indirectly, or over which control or direction is exercised, as of the Effective Date.

Unless otherwise directed, it is the intention of the Management Designees, if named as proxy, to vote for the election of the persons named in the following table to the Board of Directors. Management does not contemplate that any of such nominees will be unable to serve as directors; however, if for any reason any of the proposed nominees do not stand for election or are unable to serve as such, proxies held by Management Designees will be voted for another nominee in their discretion unless the shareholder has specified in his form of proxy that his Common Shares are to be withheld from voting in the election of directors. Each director elected will hold office until the next annual general meeting of shareholders or until his successor is duly elected, unless his office is earlier vacated in accordance with the by-laws of the Corporation or the provisions of the *Business Corporations Act* (Alberta) to which the Corporation is subject.

4. Appointment of Auditor

The Corporation's Bylaws provide that the auditors of the Corporation will be selected at each annual meeting of shareholders. Accordingly, shareholders will consider an ordinary resolution to appoint the firm of PricewaterhouseCoopers LLP, to serve as auditor for the Corporation until the close of the next annual general meeting of shareholders, and to authorize the Board of Directors to fix the remuneration as such.

Unless directed otherwise by a proxy holder, or such authority is withheld, the Management Designees, if named as proxy, intend to vote the Common Shares represented by any such proxy in favour of a resolution appointing PricewaterhouseCoopers LLP, Chartered Accountants, of St. John's, Newfoundland and Labrador, as auditor of the Corporation for the next ensuing year, to hold office until the close of the next annual meeting of shareholders or until they are removed from office or resign as provided by the Corporation's by-laws, and the Management Designees also intend to

vote the Common Shares represented by any such proxy in favour of a resolution authorizing the board of directors to fix the compensation of the auditor.

5. Re-Approval of the Stock Option Plan

The Corporation has a stock option plan (defined herein as the “Plan”) most recently approved by the Corporation’s shareholders at the last annual general and special meeting of shareholders held on June 11, 2014. A copy of the Plan is attached as Schedule “A” to the Corporation’s Management Information Circular dated October 24, 2011, a copy of which is available under the Corporation’s SEDAR profile at www.sedar.com. The policies of the TSX Venture Exchange (“TSXV”) require that stock option plans which reserve for issuance up to 10% of a listed issuer’s shares be approved annually by the shareholders of the listed issuer. That approval is being sought at the Meeting.

On December 15, 2008, the TSXV implemented changes to streamline its Policies, including Policy 4.4 relating to incentive stock options. The amended Policy 4.4 of the TSXV is less restrictive and now allows for option termination dates on ceasing to act for an issuer to be determined at the discretion of the board and for options to be granted for up to 10 years. Pursuant to the Plan, the maximum length of any option shall be 10 years from the date the option is granted. Notwithstanding the above, a participant’s options will expire 90 days after a participant ceases to act for the Corporation, other than by reason of death, subject to extension at the discretion of the Board of Directors. Options of a participant that provides investor relations activities will expire 30 days after the cessation of the participant’s services to the Corporation, subject to extension at the discretion of the Board of Directors. Under the Plan, in the event of the death of a participant, the participant’s estate shall have 12 months in which to exercise the outstanding options.

The Plan complies with the policies of the TSXV and the Toronto Stock Exchange (“TSX”). The Plan includes limitations on the maximum number of Common Shares issuable under the Plan, a “black out” provision and an amendment provision in accordance with the policies of the TSX.

Under the Plan, the Board of Directors may, from time to time, grant options to purchase Common Shares to certain directors, officers, employees and consultants of the Corporation and of its subsidiaries and affiliates. The maximum number of Common Shares issuable under the Plan and all other security based compensation arrangements of the Corporation is 10% of the issued and outstanding number of Common Shares from time to time, subject to the following additional limitations:

- (a) the aggregate number of Common Shares reserved for issuance to any one person under the Plan, together with all other security based compensation arrangements of the Corporation, must not exceed five (5%) percent of the then outstanding Common Shares (on a non-diluted basis);
- (b) in the aggregate, no more than 10% of the issued and outstanding Common Shares (on a non-diluted basis) may be reserved at any time for insiders under the Plan, together with all other security based compensation arrangements of the Corporation;
- (c) the number of securities of the Corporation issued to insiders, within any one year period, under all security based compensation arrangements, cannot exceed 10% of the issued and outstanding Common Shares;
- (d) options shall not be granted if the exercise thereof would result in the issuance of more than two (2%) percent of the issued Common Shares in any 12 month period to any one (1) consultant of the Corporation (or any of its subsidiaries); and
- (e) options shall not be granted if the exercise thereof would result in the issuance of more than two (2%) percent of the issued Common Shares in any 12 month period to persons employed to provide investor relations activities. Options granted to consultants performing investor relations activities will contain vesting provisions such that vesting occurs over at least 12 months with no more than one-quarter (¼) of the options vesting in any three (3) month period.

The Plan includes a black out provision. Pursuant to the policies of the Corporation respecting restrictions on trading, there are a number of periods each year during which directors, officers and certain employees are precluded from trading in the

Corporation's securities. These periods are referred to as "black out periods". A black out period is designed to prevent a person from trading while in possession of material information that is not yet available to other shareholders. The TSX recognizes these black out periods might result in an unintended penalty to employees who are prohibited from exercising their options during that period because of their company's internal trading policies. As a result, the TSX provides a framework for extending options that would otherwise expire during a black out period. The Plan includes a provision that should an option expiration date fall within a black out period or immediately following a black out period, the expiration date will automatically be extended for 10 business days following the end of the black out period.

Based on the policies of the TSX, the Plan specifies the types of amendments to the Plan and the options granted thereunder that can be made by the Board of Directors without the approval of the Corporation's shareholders. The Plan allows the Board of Directors to terminate or discontinue the Plan at any time without the consent of the option holders provided that such termination or discontinuance shall not alter or impair any option previously granted under the Plan. The only amendments to the Plan that would be subject to shareholder approval are amendments that would:

- (a) reduce the exercise price of an option held by an insider of the Corporation;
- (b) extend the expiry date of an option held by an insider of the Corporation (subject to such date being extended by virtue of the black out provision noted above);
- (c) amend the limitations on the maximum number of Common Shares reserved or issued to insiders;
- (d) increase the maximum number of Common Shares issuable pursuant to the Plan; or
- (e) amend the amendment provisions of the Plan.

Effective January 1, 2011, public companies such as the Corporation must withhold and remit to Canada Revenue Agency amounts from the employment benefit realized on the exercise of employee stock options. As such, the Plan also includes provisions that provide mechanisms to facilitate this withholding.

Policy 4.4 of the TSXV requires that rolling stock option plans must receive shareholder approval yearly, at an issuer's annual general meeting. In accordance with Policy 4.4, the Shareholders will be asked to consider and if thought fit, approve an ordinary resolution approving and adopting the Plan as the Corporation's stock option plan. In order for the resolution approving and adopting the Plan to be effective, it must be approved by the affirmative vote of a majority of the votes cast in respect thereof by shareholders present in person or by proxy at the Meeting. **In the absence of contrary direction, the Management Designees intend to vote proxies in the accompanying Instrument of Proxy in favour of this ordinary resolution.**

The text of the ordinary resolution to be considered at the Meeting is as follows:

"BE IT HEREBY RESOLVED as an ordinary resolution of the Corporation that:

(whether under corporate seal or otherwise) that may be necessary or desirable to give effect to this resolution; and

- 5. the Corporation is authorized to reserve and issue Common Shares in the capital of the Corporation for issuance upon exercise of stock options granted pursuant to the Plan.”**

OTHER BUSINESS

While there is no other business other than that business mentioned in the Notice of Meeting to be presented for action by the shareholders at the Meeting, **it is intended that the proxies hereby solicited will be exercised upon any other matters and proposals that may properly come before the Meeting or any adjournment or adjournments thereof, in accordance with the discretion of the persons authorized to act thereunder.**

GENERAL

Unless otherwise directed, it is management’s intention to vote proxies in favour of the resolutions set forth herein. All ordinary resolutions require, for the passing of the same, a simple majority of the votes cast at the Meeting by the holders of Common Shares.
